

TUROUOISE

with an orange pattern

I love bright colors... whether it's on glasses, shoes or handbags :) I've already made several large bags for myself, but I missed a smaller, decent handbag where I could fit my mobile phone, wallet, keys, tissues and a few cosmetic items when I went to an event.

For me, as an Aquarius, turquoise color is the top color. At this time I also liked orange... and that was it.

Dimensions: 20 • 23 cm

Depth: approx. 5 cm

Material inventory

Looped surfaces and edges: recycled white fabric dyed to turquoise color, orange cotton fabric, black satin

Lining: cotton fabric in white color with two pockets

Handle: plastic, black, half circle in black color

Bottom: non-reinforced

TIPS FOR YOU

I usually attach the lining to the lower part in the corners of handbags so that it doesn't move inside the handbag. However, I had a bit of an accident with this bag. Tincture of iodine leaked inside my pocket. If I didn't have the lining sewn to the bottom of the purse, I could pull it out of the purse and wash it more easily...
