

VARIANT

in brown with oval handle

Another of my subtle variations is this handbag for my colleague at work. I chose a longer design to test it. It is also exceptional in that other point. This one has different front and back side. The height allowed the placement of the inner pockets in two levels above each other. The wooden handles make this handbag an original affair. The bottom is again reinforced with a plywood to hold the perfect shape.

Dimensions: 38 • 30 cm

TIPS FOR IMPROVEMENT

You can place metal rings in the bend in the side parts and attach a chain to the bag for carrying over the shoulder. Or, before you start hemming the upper edge on the back part, you can crochet an arbitrarily wide closure of the bag, which will be closed with decorative buttons already sewn on after being turned over to the front.
